Subject: RE: Access to Air Quality Data

On behalf of all of the R10 Bargaining Units Employees, we deeply appreciate Management's efforts and decisions to promote transparency and collaboration on this very important Health and Safety matter.

Sincerely,

Mike

Subject: RE: Access to Air Quality Data

Ed,

That great news for our employees that have expressed concern about having access to the indoor air quality data prior to moving. The Union appreciates management's willingness to work with GSA to resolve both GSA's and the Union's concern. Providing transparency around the data goes a long way to help employees make decision and engage in discussions with their manager about potential health impacts related to the move.

Thanks everyone!

Subject: RE: Access to Air Quality Data

Natasha and Mike,

I did not want to wait until May 13 to let you know that we agree with you! Mary Kay spoke to GSA and expressed our strong interest in making the information available to our staff. Based on the result of that conversation, Mary Kay is posting information about the preoccupancy indoor air quality testing and requirements as well as a sample report from the 20th floor. She will post testing reports from the additional floors when they become available.

Thank you for your continuing partnership with us to make Region 10 a great (and happy) place to work!

Edward H. Chu
Assistant Regional Administrator
Environmental Protection Agency
Pacific Northwest and Alaska Region

Subject: Access to Air Quality Data

When: Tuesday, May 13, 2014 2:00 PM-3:00 PM (UTC-08:00) Pacific Time (US & Canada).

Where: R10Sea-Room-21A-OMP/R10-Rooms-Restricted

Hi Folks,

I am trying to schedule this meeting a few weeks out to accommodate Grady's schedule and upcoming travel for me.

Mary Kay and I have had ongoing dialog regarding unrestricted EPA R10 employee access to posted air quality data for remodeled spaces. We have not reached agreement yet and felt it was important to expand the circle of folks in the discussion who may have a stake or opinion on this matter. From the Union's perspective, the bottom line is transparency and access to data having to do with the health of bargaining unit employees.

The Union would also like to initiate discussion on water quality testing and access to data.
